Dear Jack:

Thank you so much for your help in my son's case. You truly are our "Knight in Shining Armor." Without your input, we would not have achieved the most excellent results at the sentencing hearing.

At the outset, let me state that I dearly love my son and all the other members of my family. When they hurt, I hurt.

As you well know, the Judge in this case had found my son guilty on two counts of attempted robbery with a handgun. This constituted two strikes in this "Three-strikes-and-you're-out" State of California. The Judge's decision was founded on "Believability of witnesses." Effectively the Judge did not believe my son or the three other witnesses who testified on my son's behalf.

My son was facing the possibility of incarceration for years...*for crimes he did not commit.*

Everyone who knew my son, ever since he was a little boy, could not believe the allegations nor the verdicts. Nevertheless, the Judge found him guilty. It was a crushing blow to all of us. We did not know what to do or where to turn.

We turned to the eminent attorney, Mr. Bruce Kaufman. Mr. Kaufman referred us to you (and I am so very happy he did).

I believe that no one from the legal community believed my son, my wife, myself, nor my son's character references, several of whom are highly respected members of our community and have known my son for many years. This disbelief was based largely on the fact that the Judge had found my son guilty.

We met with you and you performed a polygraph examination of my son. You found that my son was non-deceptive in his answers to your questions. From that point forward, you believed him and you believed he was telling the truth about his innocence. When you told me, with supreme confidence, that you would be at our celebration party, you lifted me from the deep depression that I had fallen into. Your confidence was truly inspiring. Subsequently, I would fall back into the state of depression time and again. The thought of your awe-inspiring confidence lifted me from that depression on many occasions.

At the sentencing hearing, ***the Judge reversed his verdict and found my son not guilty!***

Your polygraph investigations and field investigations were absolutely of the utmost importance to the Judge's reversal of his verdict. Your tag line reads, "When you need to impress someone with the Truth..." We certainly needed to impress someone with the truth. You did that for us.

On behalf of my son, my entire family and myself, Thank you from the bottom of our hearts!

Sincerely,

John Neilan
