Re: The Treated Fish Investigation

Dear Jack:

The enclosed letter from United States Attorney for the District of Hawaii, Edward H. Kubo, Jr., concludes that the client who successfully completed the polygraph you administered in 2003, has been cleared of all charges and will not be prosecuted. I believe that the polygraph examination that you conducted, along with your thorough and detailed report thereof, played a key role in our client's defense, and that the successful result obtained was an important factor in the federal prosecutor's decision not to seek an indictment. On behalf of our client, I want to extend my deepest appreciation for your outstanding work in connection with this matter. Warmest personal regards.

Sincerely,

LAW OFFICES OF BROOK HART
